### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mark Homer on September 28, 2004.

The application has been amended as follows:

Claim 1, line 4, after "the slot", --of the second flat portion-- has been inserted.

The following is an examiner's statement of reasons for allowance: the primary reason for allowance is the inclusion of two flat portions having aligned open ended slots for each portion, the portions connected to one another by a hinge located at ends opposite the open slot ends, and a latch rotatably connected to the first portion and a pin that releasably connects the latch to the second portion to secure the anchor in an unfolded position. See claim 1. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
